Percentage: 89.40%

PROJECTS

MEME - GENERATOR

https://github.com/dev2229/ReactJs-PROJECT-4---MEME-GENERATOR

This is a meme generator using React.js involves building a web application that allows users to create and customize memes easily. React.js is a popular JavaScript library for building user interfaces, and it's well-suited for creating dynamic and interactive web applications.

TRAVEL JOURNAL

https://github.com/dev2229/ReactJs-Project-3---TRAVEL-JOURNAL-STATIC-WEBSITE

Creating a travel journal using React.js involves building a web application that allows users to document and share their travel experiences. React.js, being a versatile JavaScript library for building user interfaces, is well-suited for creating interactive and dynamic components that enhance the user experience

TIN DOG WEBSITE

https://github.com/dev2229/Bootstrap-Project-1---TIN-DOG-WEBSITE

This is a Tin Dog website using Bootstrap involves utilizing Bootstrap's framework for responsive and visually appealing design

FORM VALIDATION APP

https://github.com/dev2229/Javascript-Project-3---FORM-VALIDATION

Form validation using JavaScript is a crucial aspect of web development, ensuring that user-submitted data meets specific criteria before it is sent to the server. Proper validation enhances user experience, improves data integrity, and helps prevent common issues such as incorrect or malicious data being submitted
